

Catch a Cold? Swipe the Card.

When you use your take care[®] Flex Benefits Visa[®] Debit Card to pay for qualified purchases, the money is instantly deducted from your flexible benefit account(s). You won't have to reach into your pocket to pay for qualified expenses, file a claim, and then wait to get reimbursed.

And, you'll save 25% to 40% on qualified purchases or services when you use your flex account dollars. That's because the money in your flex account is pre-tax dollars. Your savings are based on the percentage of tax you would have paid on those dollars had you not put them into a flex account.

Swipe, Save, and Go.

The take care Card is accepted at doctor's offices and select merchants to pay for qualified flex plan expenses. Your spouse or dependents can also get a Card.

Using the pre-tax dollars in your flex account saves you 25% to 40% on everyday items.
